In IT, I'm very driven and have a great passion for web development
I code beautifully simple things, and I love what I do.

I've gained much experience through my own internships and
projects, and I'm also a quick learner who doesn't hesitate to try new
technologies as well as has intuitive problem-solving abilities.

I am usually a person with Autonomy and very calm, not at all a shy
person, and I Create good relations.
I like to participate in what matters to me, give my best to the group,
and accept all perspectives.
